IP PBX For Forward Thinking Companies… Now!!

Selecting a phone system is one of the most important decisions facing businesses today. It will not only determine a company's ability to leverage the applications and technology currently supporting their business, it also determines the complexity and cost of implementing new technologies in the future.

Traditional telephone systems have become obsolete with the convergence of voice and data and Voice over IP. Metropark is proud to offer the robust AltiGen IP PBX phone systems which provide a communications foundation designed to improve the way you communicate today, with the flexibility to easily add more advanced capabilities as your business needs change.
